**Camphill Special School** is a non-profit community of about one hundred fifty people, including children and adolescents with intellectual and developmental delays, located on eighty rural acres in Chester County, Pennsylvania. Students ages four to twenty-one receive a holistic, healing education in extended family living. Students live in homes with full-time house parents and helpers called coworkers, not with hourly shift workers. Meals, special occasions, and the daily responsibilities of running a home are shared by everyone, including students. Your support of the Camphill Challenge permits our school to provide a home away from home for children with special needs now and in the future.
